

TRANSPORTATION POLICIES

Below are the transportation policies for MFuge and Centrifuge. Please read these carefully and be sure to adhere to them.

MFUGE POLICY

FUGE Camps staffers will no longer be allowed to transport students and adults in a Lifeway rental or personal vehicle. Because of this change, it is even more imperative that you follow the guidelines listed below.

Groups must provide adequate and appropriate transportation, drivers, and gasoline to transport students to ministry sites while attending MFuge.

To ensure adequate transportation, each attending group must provide enough seating, with seat belts, to cover the number of participants the attending group is bringing. You will be transporting students both from your church and other churches. Please make sure your insurance covers all passengers.

- The vehicles best suiting the needs for use at MFuge are mini-vans, personal vehicles, 12 passenger vans, and mini buses.
- If 12 or 15 passenger vans are brought for use by churches, according to Lifeway and many state laws, MFuge will not load **more than 11 passengers** (including driver) on them.

While we welcome you to bring whatever transportation to camp that best suits the needs of your church, we must recognize that the use of large buses poses significant logistical difficulty. If you bring a large bus to camp, it must have seatbelts and be available for use each day of ministry sites.

- Please keep in mind that the driver is required to stay on site in case of emergency.
- Bringing a couple of additional personal vehicles to camp per large bus is suggested for churches utilizing large buses as their primary means of transportation. This additional transportation could include cars, minivans, or 12 passenger vans.

If you do not provide enough transportation to adhere to the policy guidelines outlined above, you will be required to rent additional vehicles once you get to camp or move to MFuge With Your Church.

CENTRIFUGE POLICY

FUGE Camps staffers will no longer be allowed to transport students and adults in a Lifeway rental or personal vehicle. Because of this change, it is even more imperative that you follow the guidelines listed below.

Our recommendation is to have at least one vehicle (car, minivan, etc) with you at camp.

If your group is being transported on a charter bus or other vehicle that will not stay at camp, you must have transportation available in the following situations:

- To transport a student who needs medical attention and is required to go to the hospital or clinic.
- To move your group in the event of a natural disaster requiring evacuation.
- To run errands to a local grocery store, department store, or pharmacy.

You may need to be prepared to rent transportation should any of the situations listed above arise, if you do not have a vehicle already with you. FUGE Camps staffers are not allowed to transport students or adults in these situations.

CHARTER BUS SPECIFICS FOR CENTRIFUGE AND MFUGE

If your charter bus driver will be attending camp as a participant, staying in campus housing and eating meals on campus, the driver will need to be registered with your group and pay the full price of camp.

If your charter bus driver will be driving students to ministry sites only, the driver does not have to be registered with your group. However, you or the driver will need to make arrangements for housing off campus, unless your camp location offers hotel-style housing. In this case and if the driver wants to eat meals on campus, you or the driver will need to work with your location to reserve and pay for lodging and pay for the meals or a meal ticket.

If your group is attending MFuge, the charter bus driver will need to plan to stay on ministry site in the case of an emergency or needing to leave early.

Please communicate with your charter bus company that upon arrival to camp, your group will need at least an hour to get through at-camp registration before moving into your rooms. Luggage will need to stay on the bus until this is completed. Also, on closing morning, plan to have your group moved out of housing by 8:00 am. You will need the bus at camp at that time to load luggage.
